# Signature

a division of Custom Carpet Company

Signature is the UK's premier designer and manufacturer of luxury hand-made carpets and rugs. We have been creating magnificent wool floor coverings for over 25 years.

Signature creates beautiful hand-made luxury fitted carpets and large area rugs individually designed for each client.

Each one is specially designed to work perfectly with all other elements of your carefully selected interior design.

# Scroll Border

100% wool velvet pile with free flowing scrolls wrap around the perimeter of this sitting room carpet. Designed to allow the scrolls to extend beyond the structure of the outer black border.

A simple handtufted linear border inset into a 100% wool passmachine carpet creates a stylish staircase and landing carpet within this elegant home.

# Simplicity

# Heritage

A palette of gold and blue gives a striking look to this Heritage rug. Shaded colours and hand-carving create additional depth and richness.

The clever use of loop pile texture and hand-carving create this large scale linking circle design.

Irregular contrasting lines add to the modernity of this 100% wool, handtufted carpet.

# Contemporary

The combination of both cut pile and loop pile textures create a marbled design for this rug. The colours matched to the upholstery and the border has a hand-carved finish.

# Traditional Hallway

A large oval rug brings elegance to this traditional hallway. Golden hues lift the colours up from the surrounding herringbone wooden floor, accented with blue for the details of the design.

Handtufted in 100% wool.

# Modern Geometric

Clean lines with a diamond trellis in smart tonal colours blending to the client's furnishings. Handtufted 100% wool cut and loop pile combination.

An apartment with a view across the city to the horizon. This view has been interpreted into a border showing the skyline as night and day. Handtufted in 100% wool

Cityscape

# Rug Trio

A requirement for three made to size rugs is fulfilled using a recessed loop pile design with handcarving, alongside both central and corner motifs.

An organic scroll and rose design gives free flowing coverage to this dining room rug.

Using loop pile for the design gives additional texture and interest to the 100% wool pile.

# Classical Floral

# Rock Lines

Loop pile rock lines handtufted through this deep velvet pile allow additional accent colours to be incorporated into this large, made to size lounge rug.

# Rose Bud

A leaf trellis handtufted in 100% wool cut pile background with loop pile leaf and rose buds, give a delicate feel to this carpet.

A rich claret provides a perfect base colour for this two colour inlaid stripe, following the curve of the bottom step. An ornamental design panel continues the theme into the hall.

# Bespoke Staircase

# A Complete Service

## Initial Consultation

An appointment can be arranged to meet in our Yorkshire showroom or at the project location to discuss all aspects of design, quality, yarn types and colours.

## Design & Sampling

Based on the outcome of the consultation we can produce artwork for consideration and then proceed to sampling for quality and finish approval.

## Survey & Quotation

We can work from CAD drawings or arrange site surveys to enable a quotation to be prepared. This can include installation, within the UK or overseas if required.

## Ordering and Production

Upon receipt of a signed acceptance of quotation, we would submit a deposit invoice to enable the order to be processed and acknowledged.

## Project Management

We pride ourselves on providing the same contact personnel from the initial consultation, quotation, order process, delivery and installation to ensure continuity and service throughout the project.

## Transport

Our freight forwarders can arrange road, sea and air freight, with groupage and dedicated options worldwide. We can arrange delivery to nominated agents or door-to-door shipments, if preferred.

## Installation

We can arrange fitting with supply of materials throughout the world. Our installers are experienced in all methods, including stretched gripper fixing, adhered systems and our Velcro technique, to allow access on yacht and aircraft installations.

## Maintenance & Cleaning

We can offer a maintenance programme for carpets and rugs through our recommended advisor, who travels across the UK and overseas. We can supply cleaning equipment and training for larger properties or superyachts.
